

Instructions for abstract preparation (for LaTeX users)

First A. Author¹, Second Author^{1,2}, and T. B. Author²

¹*Institution1, Address1, City1, Country1*

²*Institution2, Address2, City2, Country2*

Instructions for preparing an abstract using LaTeX for the *School and conference on spin-based quantum information processing*:

1) Please use the LaTeX source of this document for preparing your abstract. It is formatted according to the guidelines listed below. The source can be downloaded from <http://spinqubits.uni-konstanz.de>

2) Generate a pdf (or postscript) output from your LaTeX source and upload this pdf (or postscript) file with your registration / application.

3) The abstract must not exceed **one page** including tables, figures and references.

4) The font size should be 12pt.

5) Standard LaTeX packages (e.g. `graphicx`, `wrapfig`, `babel`, ...), as well as user-defined macros, can be used.

6) Figures can be included. Please make sure that the size of your output file does not exceed 4MB.

7) We encourage authors to provide extensive references in their abstract (there will be no conference proceedings).
