

Program

Monday, April 10

14:15 – 16:00 Plenary Session – P102

Claudia Neri	Quasi Bayesian Updating in Social Networks: Theory and Evidence
Zahra Murad	Confidence Snowballing in Hierarchical Tournaments
Andreas Kappes	Concern for Others Leads to Vicarious Optimism in Belief Updating

16:30 – 18:00 Personality Traits – P203

Thomas Buser	Measuring Responsiveness to Feedback as a Personal Trait
Leonie Gerhards	Because of You I Did Not Give Up – How Peers Affect Perseverance
Christina Gravert	Self-Confidence and Motivation

Best Responses – P206

Dominik Bauer	Belief Uncertainty as a Crucial Factor in Belief-Action Consistency
Ciril Bosch-Rosa	The One Player Guessing Game: A Diagnosis on the Relation Between Equilibrium Play, Stated Beliefs and Best Responses
Anita Gantner	Information and Strategic Learning in the Minimum Effort Game

19:00

Conference Dinner

Tuesday, April 11

09:00 – 10:30 Bayesian Updating I – P203

Anja Achtziger	A Self-Regulatory Way to Belief Updating: The Implemental Mindset Controls Reinforcement Learning and Supports Bayesian Updating
John Smith	On Bayesian Models of Judgement
Matthias Greiff	Belief Formation in Reputation Systems with Endogenous Evaluations

Do Choices Affect Beliefs? – P206

Thomas Post	Past Performance Framing and Investors' Belief Updating: Is Seeing Long-Term Returns Always Associated with Smaller Belief Updates?
Sun Chen	Does Making a Choice Affect Subsequent Belief Formation? An Experimental Study
Ferdinand Langnickel	How Investment Performance Affects the Formation and Use of Beliefs

11:00 – 12:30 Bayesian Updating II – P203

Alexander Coutts	Good News and Bad News are Still News: Experimental Evidence on Belief Updating
Baiba Renerte	Type Projection or Information Neglect in Simple Tasks
Jana Willrodt	Is There a 'True' Consensus Effect?

Advice and Observational Learning – P206

Koh Boon Han	Attribution Bias in Leadership: Is It Effort or Luck?
Tobias Gesche	Persistent Bias in Advice-Giving
Igor Asanov	Do We Learn from Mistakes of Others? A Test of Observational Learning in the Bandit Problem

14:30 – 16:00

Keynote 2: Georg Weizsäcker: “Predictable Changes in Beliefs” – P102

16:30 – 17:30 Reinforcement Heuristic – P203

Alexander Ritschel	Reinforcement Heuristic in Normal Form Games
Sabine Hügelschäfer	Framing Effects and the Reinforcement Heuristic

Guilt and Responsibility – P206

Kiryl Khalmetski	Sharing Guilt
Kremena Bachmann	Responsibility Sharing, Beliefs and Risk Taking

18:30

Boat Trip (and Dinner)

Wednesday, April 12

09:00 – 10:30 Identity – P203

Maria Polipciuc	Identity-Dependent Beliefs and Coordination
Jakub Šrol	How Attitudes Toward Highly Controversial Topics Shape Our Thinking: A Comparison of Slovak and Polish Sample in Reasoning About Abortions
David Hagmann	Persuading in the Presence of Motivated Beliefs

Information Search – P206

Peter Lewisch	Information Search, Coherence Shifts and Their Interplay for Legal Decision Making
Jarid Zimmermann	On the Motivated Acquisition of Social Information
Adam Sanjurjo	Search with Multiple Attributes: Theory and Empirics

11:00 – 12:30

Keynote 1: Nicholas Epley: “Undersociality” – P102
